## PET MEMORIAL KEEPSAKES PRODUCT BROCHURE

THE TIME STOOD STILL COLLECTION

*"Keepsakes for you to treasure, when those moments in time stood still"*

## Time Stood Still Keepsakes

We create bespoke memorial keepsakes designed to honour a life, a love, and a moment that will always matter.

Each piece is handcrafted with care, incorporating precious elements such as ashes, hair, or memorial inclusions, and transformed into something timeless and deeply personal. We understand that grief of a family pet is not something to be rushed.

Our keepsakes are made to offer comfort, connection, and a quiet way for families to remember their beloved pet today, tomorrow, and always.

## Time Stood Still Collection

We have created The Time Stood Still Collection – an exclusive range of memorial jewellery designed especially for families wanting to capture the memory of the family pet.

This collection reflects a shared commitment to dignity, remembrance, and meaningful keepsakes, offering families a lasting tribute created with the utmost respect and care.

This brochure is designed to guide families through the available jewellery styles within the collection, allowing them to explore shapes and designs that feel most meaningful to them.

Once a style is chosen, families can personalise their piece by selecting their preferred stone colour and deciding whether they would like the ashes to be visible or discreetly set within the keepsake. Each choice is entirely personal, ensuring the finished keepsake reflects your wishes.

## The Process

Each memorial piece is crafted with the utmost care and respect, and this thoughtful process takes time. From the moment your pets' elements arrive in our studio, we begin a careful, handcrafted journey to create something truly meaningful. Because every item is made individually and with great attention to detail, the creation process typically takes 2-4 weeks. This ensures your keepsake is not only beautiful, but a lasting tribute made with the dignity it deserves.

# INCLUSIONS

Your memorial piece can be created using a range of cherished inclusions, allowing you to keep a deeply personal connection close. Ashes, fur and fabrics can all be carefully incorporated into your jewellery, each handled with respect and precision. These inclusions are delicately sealed within the design using high quality and long-lasting products, preserving their beauty and significance while ensuring the piece remains durable and wearable. This thoughtful process allows every item to become a unique tribute, carrying the presence and memory of your loved family pet in a meaningful, lasting way.
